

ADURO ISOFIN

THE PURIST

Paint runs through our veins.

ADURO ISOFIN – THE PURIST

The pure wood look for light woods.

Authentic. Dull matt. Modern. Aduro Isofin – the new brightening varnish from ADLER for popular surfaces with an unspoilt, dull matt look – maintains the natural colour of the wood and is very easy to apply. With its brightening effect, the 2C polyurethane clear varnish is particularly suitable for light species of wood as well as for old wood and maintains the appearance of sanded, untreated wood. Good mechanical and chemical resistance round off Aduro Isofin as a new top product.

YOUR ADVANTAGES

- // brightening effect
- // natural, dull matt look & feel
- // beautiful pore pattern
- // quick-drying
- // good chemical & mechanical resistance
- // for old wood and light species of wood such as maple, oak or spruce

AREAS OF APPLICATION

- // for the coating of furniture and interior finishing exposed to normal levels of stress: tabletops and storage surfaces in the living area, fronts and permanently visible surfaces, stressed surfaces of seating furniture and surfaces not permanently visible
- // can be applied “varnish-on-varnish“.
- // application areas III – IV (ÖNORM A 1610-12)
