BLUEFIN PIGMORES 4IN1

The complete water-based solution that puts efficiency first.

High-quality. Efficient. Economical. The new Bluefin Pigmares 4in1 acts as insulation, filler, colour paint, and top coat in one. The complete solution allows for easy and uncomplicated handling and at the same time makes sure there is good filling power and sandability, as well as extremely good ring indentation resistance. Bluefin Pigmares 4in1 can be used directly on MDF boards and offers, in addition to three degrees of gloss, a varied colour palette.

YOUR ADVANTAGES

- // Water-based 2C pigment paint for furniture surfaces
- // 4in1 solution: Insulation, filler, colour paint, and top coat in one
- // Very good filling power and optimal sandability
- // High chemical and mechanical resistance
- // Very good ring test resistance
- // Can be used directly on good quality MDF boards
- // Resistance to cream and grease (CFB)
- // Free of organotin and low VOC emissions
- // Large colour palette
- // Also available as texture paint

APPLICATION AREAS

- // For high-quality, open and closed pore pigmented paint systems for furniture and interior design, including surfaces in kitchen and sanitary areas
- // Application areas II – IV in accordance with ÖNORM A 1610-12
- // For the efficient coating of MDF boards with the so-called „paint-on-paint“ procedure
- // For hardly inflammable or flame-retardant coating systems
