

WINDOW WITH A GREEN OUTLOOK

Paint runs through our veins.

Aquawood Terra

The eco-friendly coating system for wooden windows

Aquawood Finapro Terra and Intermedio Terra SQ form an innovative coating system for windows in indoor and outdoor settings, bringing together natural beauty and sustainability.

The topcoat for wood and wood/aluminium windows consists of 80 % natural ingredients, meaning greater sustainability and a responsible approach to the use of our natural resources. Combining it with the intermediate coat Aquawood Intermedio Terra produces an especially sustainable overall result with a long lifespan. And the true-to-nature surface with a durable, dull matt, natural look and feel will give you excellent outcomes in both indoor and outdoor areas. The coating system gives you a high degree of transparency and luminance, and you'll be impressed by the top-level UV protection that it provides, in both interior and exterior settings. Excellent resistance to weathering guarantees outstanding durability. The system also offers very good scratch resistance and hardness, making the surface of the window frames even more long-lasting and sustainable. The dull matt look will therefore remain faultlessly beautiful during application of coats and assembly of the windows. The coatings also dry very quickly, ensuring an efficient application process.

COATING SYSTEM

1x Aquawood Primo TG WF
1x Aquawood Intermedio Terra SQ
1x Aquawood Finapro Terra

Paint runs through our veins.

INTERMEDIATE COAT

AQUAWOOD INTERMEDIO TERRA SQ

ensures high-quality, all-round weather sealing, and therefore optimal protection against moisture

Product no. 5708000200
Container 25 kg

FINISHING COAT

AQUAWOOD FINAPRO TERRA

the sustainable, scratch and weather-resistant topcoat for indoor and outdoor use, with maximum resistance to UV light

Product no. Base W30 5113000030
Container 20 kg

ADVANTAGES

- Maximum sustainability with more than 80 % natural ingredients
- Option to ensure that the coating system is free of active agents through use of a suitable primer
- Pleasant, velvety feel and a true-to-nature look
- Highly transparent with maximum UV protection and outstanding resistance to weathering
- Very high mechanical load capacity makes the surface of the window frame highly durable with a long lifespan
- Dries very fast, making it very efficient to apply
- Dull matt look and a highly durable surface
- Equally suitable for both interior and exterior use
- Certified with the ADLER green label for particularly sustainable products

Paint runs through our veins.

90 years ago, Johann Berghofer laid the foundation stone for ADLER and work was started to develop its own paints.

Much has changed since that time, but one thing has stayed the same: our passion for colour, which drives us day after day to work on the perfect surface coating.

Paint runs through our veins.
